Every limited liability company needs to produce a set of accounts at the end of the company ' s financial year. These consist of a profit and loss account, balance sheet, trial balance, and cash-flow statement. Every company in the UK has to submit these accounts to Companies House, as specified in the Companies Act.

A Guide to Accounting Basics - Basics of Accounting

Financial Accounting For Dummies Cheat Sheet. By Maire Loughran. Financial accounting is the process of preparing financial statements for a business. The three key financial statements are the income statement, balance sheet, and statement of cash flows, and they serve two broad purposes: to report on the current financial position of the company, and to show how well the company performs over a period of time.

Financial Accounting For Dummies Cheat Sheet - dummies

Understanding liabilities and owners ' equity. Liabilities and owners ' equity are the two basic types of claims on the assets of an entity. The two-sided nature of the accounting equation is the basis for double entry accounting that records both sides of the entity ' s transactions: what ' s received and what ' s given in the economic exchange. Assets = Liabilities + Owners ' Equity.
