Introduction to Managerial Accountingby Garrison/Noreen/Kalagnanam/Vaidyanathan is based on the market-leading text, Managerial Accounting,by Garrison. However, this is not simply a briefer book with chapters removed. It has been rethought, reorganized, and retooled to meet the needs demanded by the market: a more accessible yet thorough text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course, cost accounting/cost management. Faculty and students alike will find this new text has retained the hallmark features of the Garrison text: excellent readability; terrific examples; thorough, relevant, and balanced end-of-chapter material.

This book provides process costing; activity-based costing; cost-volume-profit; inventory; balanced scorecard; overhead application and analysis; budgeting; financial statement analysis; decentralization and segment reporting.
