Pop Internationalism  
"Pop internationalists" — people who speak impressively about  
international trade while ignoring basic economics and  
misusing economic figures are the target of this collection of  
Paul Krugman's most recent essays.

Pop Internationalism | The MIT Press

Paul Krugman is a very intelligent economics author. In Pop  
Internationalism, he discusses common myths about  
globalization and applies theory and data to disprove many of  
them. His writing style is so loose and understandable that  
people who don't know anything about econ can easily  
understand his works. I highly recommend this book to

Pop Internationalism by Krugman, Paul

The sweetness of Pop Internationalism is much less satisfying. I can resell the book on Amazon and recapture some of my capital "investment". Usually a book of this sweep would garner a place on my bookshelf as a reference. But Krugman so expertly dissects everyone in the room, that there is no further reading required. Originally paperback - rebound as hardback Please note the Image in this listing is a stock photo and may not match the covers of the actual ...

9780262611336 - Pop Internationalism by Paul Krugman

Pop Internationalism is definitely a vestige of the NAFTA debate, but the book is still relevant today. The thesis of the book is that thinking of international trade between two countries as "competition" misrepresents what trade actually is, and that economists don't know how to properly address wider audiences so their valuable insights go largely ignored.

Pop Internationalism Notes - Stuvia

In this paper we provide stylized facts about the global music consumption and trade since 1960, using a unique data on popular music charts from 22 countries, corresponding to over 98% of the global music market. We find that trade volumes are higher between countries that are geographically closer and between those that share a language.

Pop Internationalism by Krugman, Paul R. - Amazon.ae

In Pop Internationalism, a collection of his recent essays, Paul Krugman claims to have discovered an ideology in the classical sense: the doctrines of national competitiveness and globalization. These ideas are so much a part of conventional wisdom that there's little need to explain what they are, but a brief reminder can't hurt.
