The Austrian Information Security Handbook, which is only available in German, describes information security as follows:

Information security is always a management task. This task can only be performed successfully if the management of an organization is entirely behind the security objectives and the associated activities.

The information security industry faces a severe skill shortage. IT departments cannot find enough experienced applicants to employ, despite advancement in IT security technologies like Secure Web Gateways, Next Generation Firewalls, and Cloud Access Security Brokers (CASB). The shortage has grown so urgent that IT professionals report that a lack of trained professionals is the number one ...
