The Cosmic Serpent: DNA and the Origins of Knowledge is a 1998 non-fiction book by anthropologist Jeremy Narby

The Cosmic Serpent - Wikipedia

DNA made the air we breathe, the landscape and all the creatures. It terraformed the earth and created us. The serpent is our creator ∫ our first god and the origin of life and knowledge ∫ and it lives inside us. The Cosmic Serpent is one of those books that turns your mind inside out. Jeremy Narby draws together shamanism, ancient mythology, molecular biology and neurology to show that specific biological information can be directly transmitted through DNA into our consciousness.

The Cosmic Serpent: DNA and the Origins of Knowledge by ...

The Cosmic Serpent is doubly themed. One theme is that of the symbol of the creator serpent (or twin serpents) as the source of knowledge and of all life itself. The other theme is that of DNA which in our modern western world-view is the source of all life and all organic information. These two threads are wound about in a spiraling narrative like the double helix of the DNA molecule or the twin serpents found in the timeless myths of cultures the world over.
