plan the first Impressionist painting exhibit in 1874, even though works by women were to be shown. In the play, the dinner is at the home of Victor, a successful artist, and Clovis, an artist who no longer paints. After helping with the preparations and being excluded from the dining room, Clovis devises a "women only" dinner to be held outdoors.

Did you know that a dream about a blanket can either be a warning to guard your investments or a sign that you can expect financial gain--depending on the context? Or that a dream about lightening generally precedes good luck? From the time Jacob dreamt of a ladder to heaven, through the era of Freud and Jung, right up to the findings of the latest sleep research, the wise have believed that dreams hold important secrets. In this A-Z dictionary of dream symbols, a psychic counselor applies both traditional and scientific approaches to provide a handy key to what your dreams are saying. From anchor to zebra, all dream symbols are analyzed, showing how they bring us messages, reveal our hidden wishes and mental states, and even foretell our future. Readers everywhere will use this little book to learn what their subconscious is trying to communicate. Examples of dreams and their meanings: Alligator: Treachery and secret enemies are about Garlic: You are on the way up and will achieve wealth Snakes: Forthcoming problems and deceit Vermin: Petty irritations Cancer: A long life, if you don't overdo it! Parking: Time to wind down a relationship This little dictionary is an ideal reference for your nightstand. When you wake from sleep, quickly refer to this book and discover the meaning of your dreams.

Buildings, bridges, and books don't exist without the workers who are often invisible in the final product, as this joyous and profound picture book reveals from acclaimed author of *The Christmas Boot* Lisa Wheeler and New York Times bestselling illustrator of *Love* Loren Long All across this great big world, jobs are getting done by many hands in many lands. It takes much more than ONE. Gorgeously written and illustrated, this is an eye-opening exploration of the many types of work that go into building our world--from the making of a bridge to a wind farm, an amusement park, and even the very picture book that you are reading. An architect may dream up the plans for a house, but someone has to actually work the saws and pound the nails. This book is a thank-you to the skilled women and men who work tirelessly to see our dreams brought to life.

In the rich, revealing dreams of pregnancy both the mother and father-to-be can discover a lot about their baby - before it is born! This text includes information on dreams common for each trimester and a special glossary of what everything means.

the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

A comprehensive, eye-opening exploration of what dreams are, where they come from, what they mean, and why we have them. Questions on the origins and meaning of dreams are as old as humankind, and as confounding and exciting today as when nineteenth-century scientists first attempted to unravel them. *Why do we dream? Do dreams hold psychological meaning or are they merely the reflection of random brain activity? What purpose do dreams serve? When Brains Dream* addresses these core questions about dreams while illuminating the most up-to-date science in the field. Written by two world-renowned sleep and dream researchers, it debunks common myths—that we only dream in REM sleep, for example—while acknowledging the mysteries that persist around both the science and experience of dreaming. Antonio Zadra and Robert Stickgold bring together state-of-the-art neuroscientific ideas and findings to propose a new and innovative model of dream function called NEXTUP—Network Exploration to Understand Possibilities. By detailing this model's workings, they help readers understand key features of several types of dreams, from prophetic dreams to nightmares and lucid dreams. *When Brains Dream* reveals recent discoveries about the sleeping brain and the many ways in which dreams are psychologically, and neurologically, meaningful experiences; explores a host of dream-related disorders; and explains how dreams can facilitate creativity and be a source of personal insight. Making an eloquent and engaging case for why the human brain needs to dream, *When Brains Dream* offers compelling answers to age-old questions about the mysteries of sleep.

The Dream of the Rood is a poem that has entranced generations of scholars. It is one of the greatest religious poems in English literature, the work of a nameless poet of superb genius. Immediately attractive, its poetic content is readily accessible to the modern reader, being in the mainstream of Western religious thought. Representative of the Golden Age of Anglo-Saxon culture, drawing on both visual and doctrinal motifs, it provides a ready introduction to its own intellectual and artistic milieu. This is underlined by intimate links with the Ruthwell Cross, the documentary context of the earlier version, and itself often regarded as one of the finest monuments of the Anglo-Saxon Age. This edition presents a conservative text with variant readings described in the notes. In his introduction Professor Swanton describes the Vercelli Book, in which the full text of *The Dream of the Rood* is found, and gives an account of the Ruthwell Cross, the sources for which are scattered and not normally familiar to students of Old English. The relationship between the two texts, the doctrine behind the poem and its style and structure are also discussed. The edition includes extensive notes and a glossary.
