Frogs - an Introduction. The frogs are some of the few remaining members of the amphibia, a group which flourished 250 million years ago. Other present-day members of the group are the toads, newts and salamanders. The amphibia are adapted, in general, to moving, feeding and breathing on land as well as in fresh water.

Frog uses most of the Bootstrap CSS styling, so setting the DIV's class to be alert and alert-info gives us a nice blue box. Bootstrap CSS . We're still not doing anything with the contents of the DIV though. We've added an ID to the DIV to make it easier to find for the next step. Step 5. Re-edit the page and open the editor again.
