The Housing Trap - The New York Times

- A first time buyer on a low to middle income would, on average, need to save 5% of their net income for 45 years before they could afford a deposit on their first home
- Those who rent tend to pay a higher proportion of their income on housing. This report reveals the housing trap that families across the UK are facing on a day to day basis.

The Housing Trap

How New York Can End the Public Housing Trap. Nearly half (47 percent) of all the households in New York City public housing have lived in their apartments for 20 years or more. Some 18 percent have lived in the projects for at least 40 years. This is not just intergenerational dependency. Spending a lifetime in public housing also reflects a lifetime of missed opportunity.
